

Welcome!

Session 2: Monday, 11:00 am - 12:00 pm

- Hands-on: speed-dating crowdsourcing projects
- Discussion: report back

Speed-dating crowdsourcing projects

- Choose from the projects listed on <http://bit.ly/Crowdsourcing2015>
- The aim is to find a project you love
 - If you've caught the bug, you'll better understand other participants
- If you don't like a project
 - Practice articulating the reasons

Project reviews

For each site you review, write one post-it note each on:

- What you liked most about it
- What you liked least about it
- Who would you recommend it to?

Write the project name at the bottom of the note and post each note by the project name
