Exercise

Hands-on: designing community ecosystem around core tasks - how can people grow their skills while helping the project?

Holistic design for a virtuous circle

- Ecosystem of crowdsourcing projects
 - Crowdsourcing tags or transcription to support discoverability and other crowdsourcing tasks
 - Validate data created in other projects
 - Help surface most interesting items
 - Help find most difficult items for advance challenges
- Supports different abilities, skills, types of challenge

Special Guest

Dr. Meghan Ferriter

Project Coordinator for the Smithsonian
Transcription Center
